# FLOWER AND VEGETABLE SEED NOVELTIES OF MERIT FOR 1943

PETUNIA ALDDOUBLE AMERICA

## Cosmos

### Giant Sensation Dazzler

Still the favorite Cosmos for cutting, the Sensation type is just superseding other strains.

Flowers are very large and of a rich deep Amaranth crimson, being borne on long heavy stems which reach a height of three to four feet. A worthy companion to Pinkie and Purity.

Trade Pkt.....\$0.25    ¼ oz.....\$0.40    Oz.....\$1.25

## Marigold

### Dwarf French Harmony Sunkist

Silver medal winner in the 1943 All-America Selections Sunkist is a sport from Butterball (winner in the 1942 trials). Color is a deep golden orange. Flowers are large (2 inches) with crested centers. Sunkist is early and very free blooming, and is especially recommended for the border, window box or pot.

Trade Pkt.....\$0.25    ¼ oz.....\$0.40    Oz.....\$1.25

## Petunia

### Hybrida Nana English Violet

A new shade of violet blue Petunia differing from any of the other mid-blue varieties. It is almost the same color as English violets. Flowers are of uniform shade and size. Plants normally grow 15 to 18" tall. Ideal for bedding purposes.

Trade Pkt.....\$0.50    ⅛ oz.....\$2.25    ¼ oz.....\$4.00

## Petunia

### Hybrida Nana Igloo

Within two points of being a silver medal winner, Igloo was awarded a Bronze Medal in the 1943 All-American Selections. It is the most uniform blooming white hybrida nana type so far developed.

Plants are very uniform and compact, being 12 to 15 inches tall. Flowers are of medium size; fine white with a slight yellowing in the throat and are 100% true. Every flower is just exactly alike. An ideal Petunia for border work.

Trade Pkt.....\$0.50    ⅛ oz.....\$3.00    ¼ oz.....\$5.00

## Petunia

### Alldouble America

See Illustration

Silver Medal Winner in the 1943 All-American Selections. Alldouble America is of the Hybrida Nana Carnation flowered type. Blooms are of medium size and are borne in great abundance from early summer until frost. Color is a mauve-pink, making Alldouble America ideal for bedding as well as cutting.

This is the first all double Petunia produced in America and by an American firm.

½ Trade Pkt. (500 Seeds)....\$1.50    Trade Pkt. (1000 Seeds)....\$2.50

## Tomato Jubilee

### Bronze Medal Winner, All-American Selections of 1943

See Illustration Below

A new orange-yellow tomato which compares favorably with the best of the standard red varieties in shape, smoothness, quality and solidity.

Jubilee is entirely different from any yellow or orange tomato ever grown. Fruits are bright orange-yellow, globular, weigh about 6 ozs., smooth, and quite free from cracking. The interior is modern, thick-walled, with few seeds. The flavor is somewhat mild but not flat. Makes delicious juice of unusual and attractive color. Fruits of Jubilee are usually ready in about 72 days after plants are set out in the garden.

The plants are short-stemmed, but not determinate, stiff, compact, and cover the fruit well. They also hold their foliage well and bear over a long season. The fruit color develops evenly and uniformly.

½ oz.....\$0.75    Oz.....\$1.25    ¼ lb.....\$4.50

TOMATO JUBILEE

## Pepper—Early Pimento

### Bronze Medal Winner, All-American Selections of 1943

One of the earliest of all peppers, the first fruits being ready to pick in about 65 days after plants are set in the garden and they will continue to bear profusely over a long period.

Peppers are heart-shaped, pendent, with thick stems so that they are easily picked. Mature fruits are 3½ in. long and 2½ in. in diameter at the top, smooth, dark green, turning bright red when ripe. The flesh is ¼ to 5/16 in. thick—a heavy walled pepper which is mild at all stages of maturity, and is especially sweet after it has turned red.

### Wilt Resistant Aster Strains

These strains have been developed to resist the attacks of the wilt fungus, which has for the past few years caused so much loss to growers.

#### Early Giant

(See Illustration)

Flowers are very large and full with broad, graceful petals. The plants are only 1½ to 2 feet tall and branching low on the central spike.

**Light Blue**, clear rich light blue.

**Peachblossom**. Early bloomer.

**Rose Marie**. Rich Rose. Early bloomer.

----------------	--------	-----------	--------	---------	--------

#### Princess Type

This new type Aster provides a needed, new form for the cut flower grower. The blooms have a full crested center surrounded by several rows of strong guard petals. They are fine keepers and good shippers. Plants in the field are from 18 to 24 inches in height, but of course, when grown under some shade would double their height.

**Princess Anne**—Peachblossom.

**Princess Bonnie**—Soft salmon rose.

**Princess Marsha**—Cinnebar scarlet.

The plant's dwarf compact habit, free flowering and keeping qualities make it most desirable for dish gardens, terrariums and novelty pots or filling in where a dwarf plant is desirable, the height over all being but 5 or 6 inches. Has bright scarlet clusters of bloom borne on short stems just above the foliage; leaves are small, being placed one on top of the other on closely jointed stems. Whether in flower or not the plant compares favorably with other succulents as a filler and it can be flowered early by the use of black cloth treatment:

## Marigold—Continued

### Dwarf Gigantea Pot O'Gold

(See Illustration)

The plants are dwarf and compact growing, 12 to 15 inches in height, well branched, very neat in appearance and bearing a dozen or more of its large gigantea type blooms. Color is a bright deep golden orange. Pot O'Gold is one of the earliest flowering Marigolds, coming in ahead of the Floribunda type.

Primarily a bedding plant for the garden, it can also be cut for indoor use since the stems are 10 to 12 inches in length.

Trade Pkt.....\$0.25    ¼ oz.....\$0.50    Oz.....\$1.50

### African Little Giants Mixed

PETUNIA GIANT DOUBLE MADONNA

## Petunias

### Double Giant Ruffled and Fringed

The original stock of these varieties is the famous Shepherd strain, which our grower has continued to improve since the Shepherd firm retired from business. This strain so noted for its wonderful color range, now produces 95% double fringed flowers of immense size.

### All Double Dwarf "Victorious" Strain

A strain of dwarf Petunias that gives practically 100% double flowers from seed, something every Florist has been looking for. Flowers are large ruffled and fringed in a splendid range of color. A dwarf compact grower, making it ideal for pots as well as for bedding. Due to the shutting off of imports from Japan, the seed we offer below is of 1940 crop. However, recent germination tests show that same is satisfactory, but of course under the circumstances, we cannot entertain any complaints on germination.

<b>Amaranth Red.</b> Bright amaranth red.	
<b>Appleblossom.</b> Plants are very dwarf with appleblossom pink flowers.	
<b>Blue Brocade.</b> Violet blue.	
<b>Gaiety.</b> Rose-red and white with frilled petals.	
<b>Loveliness.</b> Clear pink.	
<b>Orchid Beauty.</b> Orchid or light lilac.	
<b>Rosy Carmine</b> (World Beauty). The ideal plant for pots and bedding purposes. Practically 100% double with large fringed flowers of a beautiful rose-carmine color. The plants make a very dwarf, compact growth and are very free flowering.

PETUNIA FRINGED

## Giants of California

### Supreme Florist Strain

For some years there has been a demand for this type of Petunia in a color range comprising the lighter rose and pink shades, and we feel that it will be a welcome addition to the large Florist type. It is of the well known Giants of California type, with very large ruffled, shallow, open throated flowers, freely produced on strong growing plants which may be as much as two feet tall by the end of the season. It is an excellent bedding variety as well as a fine window box type.

Trade pkt.....\$1.00	$\frac{1}{8}$ oz.....\$1.75	$\frac{3}{8}$ oz.....\$3.00
----------------------	-----------------------------	-----------------------------

### Glamour

A luscious shade of salmon rose, delicately veined brown in the creamy open shallow throat. The blooms are extremely large, 5 to 6 inches in diameter, with a shallow open throat surrounded by satiny petals which are heavily ruffled. The huge strikingly beautiful flowers are freely produced on strong growing richly foliated plants which will be 1½ ft. to 2 ft. tall by the end of the season, although the first flowers are produced when the plants are only 5 inches to 6 inches tall.

### "Panamiga" (*Pilea Involucrata*)

A new house plant from South America, growing in tropical woods from Panama to Brazil; prefers medium shade. The leaves, of metallic gloss, change in color from olive green to purplish bronze and are crinkled and hairy. The graceful flowers resemble fine white lace; they appear on the end of the little branches and partly cover the upper leaves.

Panamiga has a very neat and compact growing habit and makes salable plants in record time. Will grow in any light soil under the same general conditions as *Philodendron* and is not subject to insect trouble.

### Lindig Soil Shredder

In these days of scarcity of men and higher wages any labor saving device should be a boon to the average florist. With a Lindig Soil Shredder you can easily shred and pulverize three to four times the soil that can be screened by hand in the same time. The machine is fool-proof, sturdily built and will keep two men busy throwing sod, soil, manure, peat or other material into the hopper.

We can still deliver Shredders but have trouble getting motors. Write us if interested and we will advise promptly what we can do.
